BOOK NUMBER A99.61
933383 F76Pi

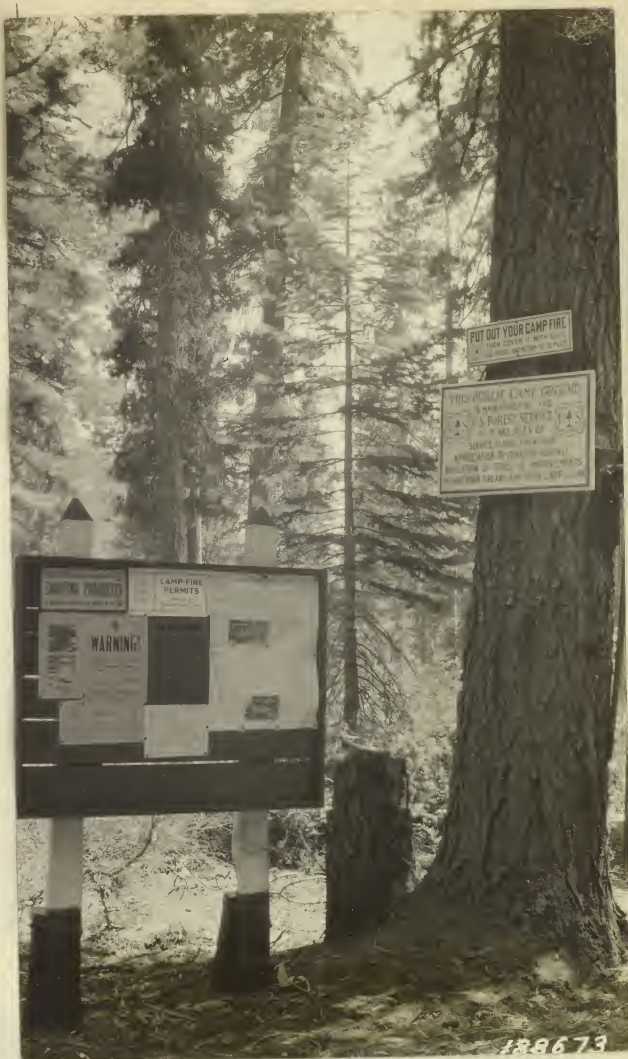

1. Partial view of Echo Lake camp, Eldorado Forest. This camp is used by over 10,000 people annually and should have good, substantial improvements.

2. Partial view of one of the several camps in Lytle Creek Canyon, San Bernardino National Forest. Frequently on Sunday this camp is packed with picnickers.

3. Bulletin board and standard camp ground sign on the Mineral camp ground, Lassen National Forest. This camp is occupied all summer.

4. Bulletin board on the Figueroa Mountain camp, Santa Barbara National Forest.

5. Camp caretaker's cabin at Tahoe Public Camp, Tahoe National Forest. These grounds, valued at \$25,000, were donated by Hon. Wm. Kent during his lifetime. This is the only camp ground in District 5 where the Forest Service has been able to provide a cabin of this kind and this was largely possible through use of picked-up material.

6. Type of table, fireplace, and garbage box used on camp grounds on the Mono Forest.

7. Registration booth at Tahoe Public Camp on the Tahoe National Forest. This is the only one of the more largely used camps in District 5 which we have been able to fix up so it is really convenient for the public.

8. Swimming on the beach at Strawberry Flat in front of the public camp at Pine Crest, Stanislaus National Forest. Frequently over week ends and on Sundays there are over 1,000 people on this camp; it has only the most primitive kind of sanitary conveniences.

9. Typical bunch of campers
at Tahoe Public Camp,
Tahoe National Forest.

10. Boy Scouts in camp on one of the public camps in the
Laguna Mountain region, Cleveland National Forest.
This area is used by thousands of people annually.
Neither water supply system nor sanitary conveniences
are up to standard.

11. Latrine of the standard type used in District 5. This one is at the Tahoe Public Camp, Tahoe National Forest.

12. Typical camp scene in Echo Canyon, Angeles National Forest. The Sunday crowd here in this canyon frequently runs anywhere from 5,000 to 10,000 and the accommodations are entirely inadequate.

13. Camp scene on the Angeles National Forest showing incinerator made of an old oil drum.

14. Type of flush toilets installed by Santa Barbara County on the Paradise Public Camp in the Santa Barbara National Forest. This concrete building with accompanying septic tank, water piping, etc., cost approximately \$1,000. This is the kind of sanitary convenience station the Forest Service should have on some of the largely used public camps. They cannot be provided with the funds now available.

Handwritten text, possibly a list or account, with several lines of cursive script.

Handwritten text, possibly a list or account, with several lines of cursive script.

Handwritten text, possibly a list or account, with several lines of cursive script.

17. Temporary tent quarters of fire man in California District. Difficulty of properly safeguarding official and private property under such conditions is manifest.

18. Fire equipment truck bought for San Bernardino Forest by cooperators on display at County Fair.

19. Putting out fire with water furnished by power pumps.
California District.

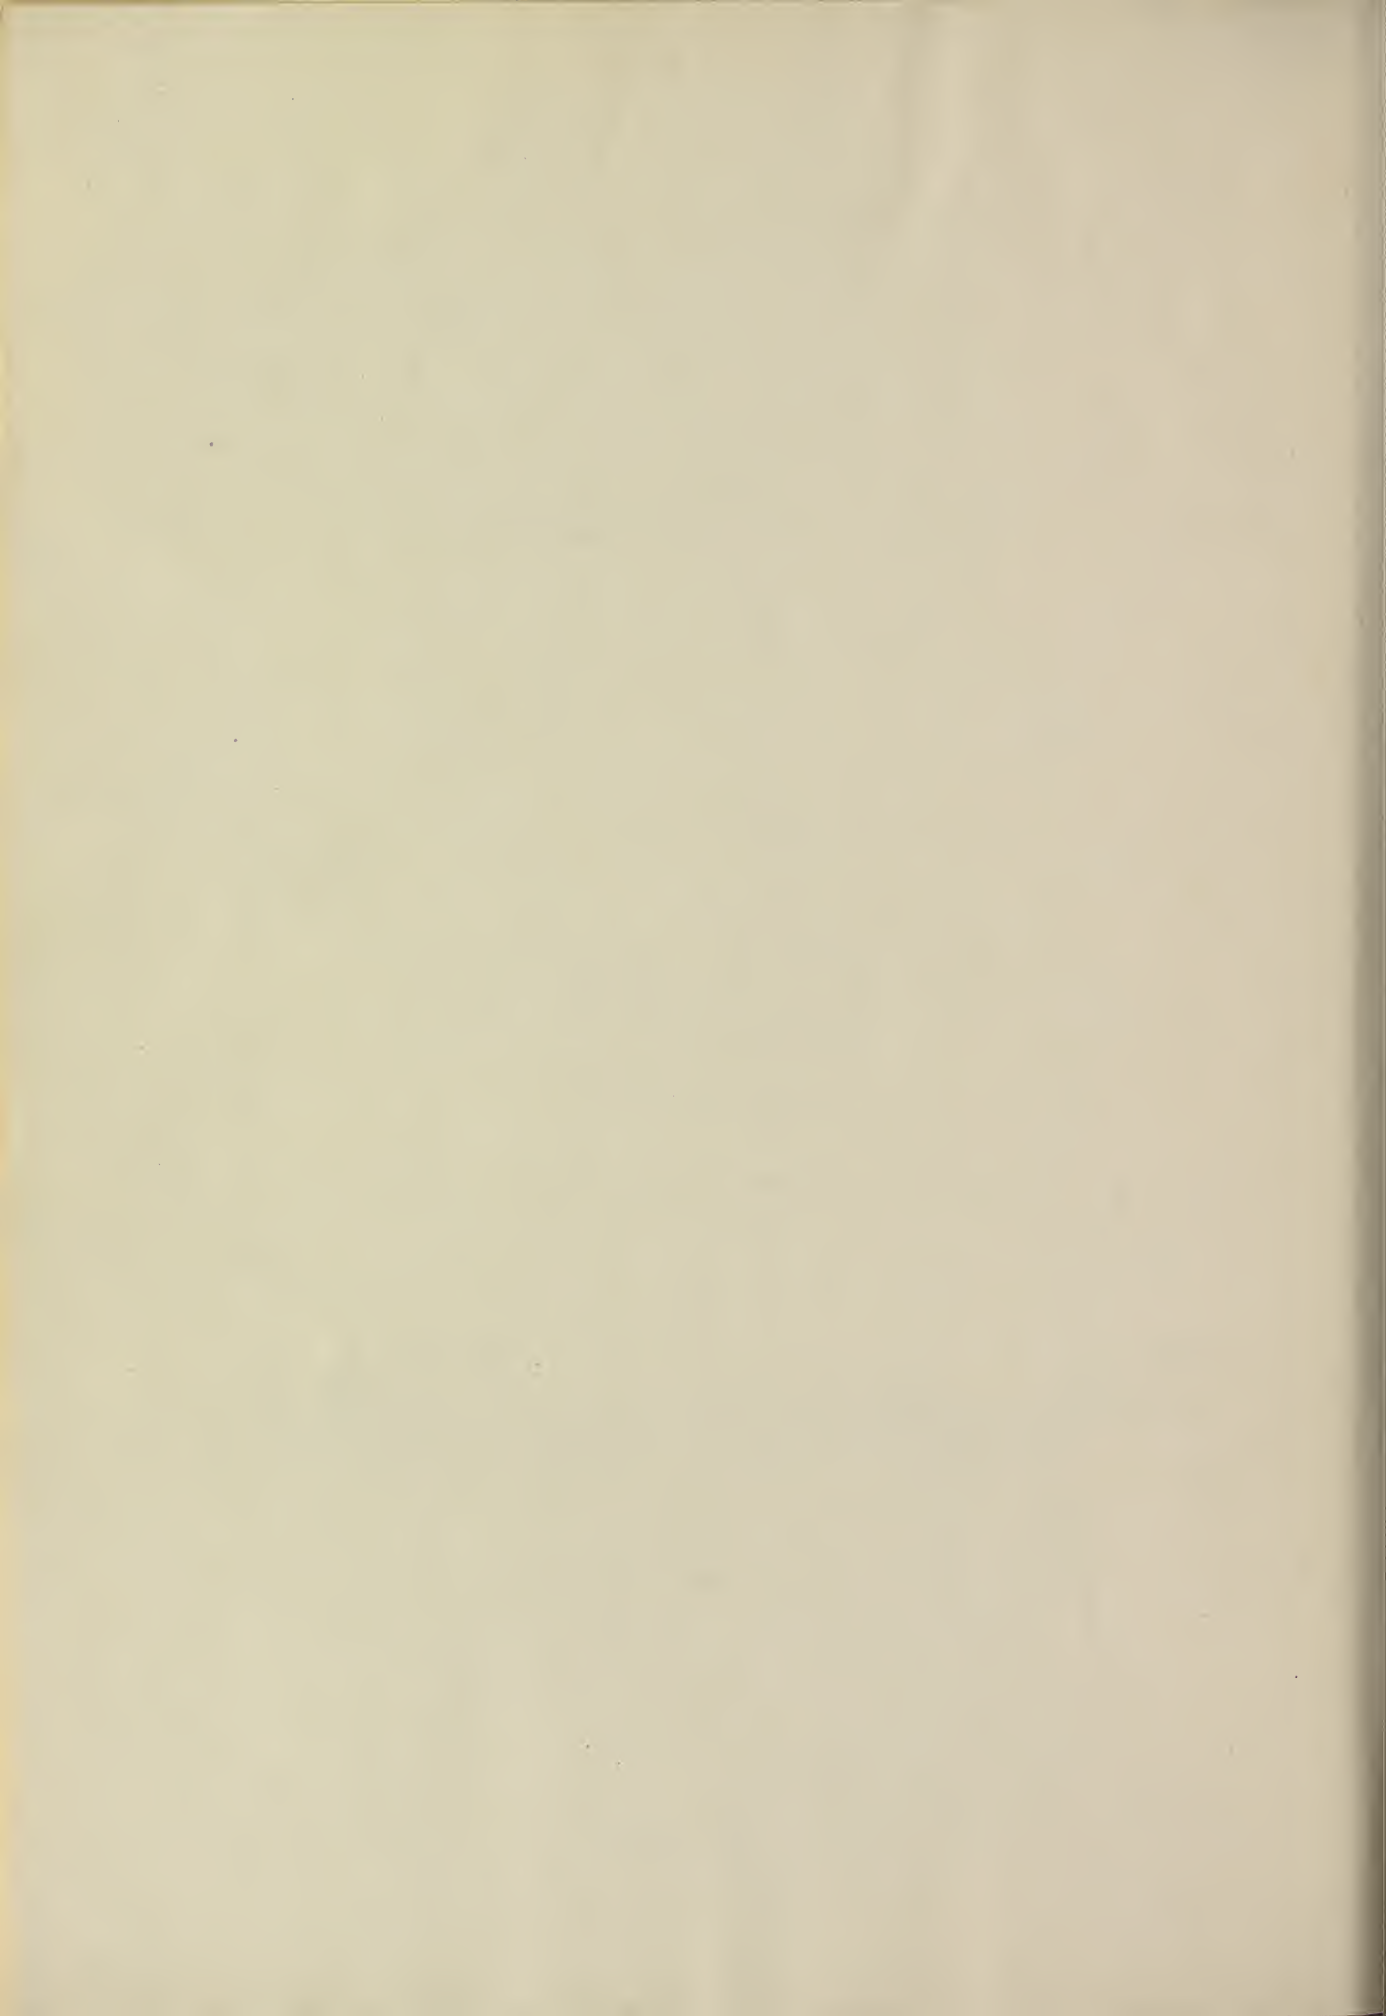

20. Using power pump on mopping up dense reproduction fire.
Tahoe National Forest

21. Type of tractor and grader used in construction of simple roads and fire lines in California District.
